

DROPPED OBJECT PREVENTION Train the Trainer

DROPS Global is delighted to announce that the internationally recognised DROPS Train the Trainer event will be offered at Occidental of Oman, Al Assalah Towers, Muscat, Oman on **Monday 22 May 2017**. This course is now available for booking at training@dropsonline.org

DROPPED OBJECT PREVENTION
TRAINING
MUSCAT, OMAN
22 May 2017

DROPS Train the Trainer : The only dropped object prevention training programme prepared and delivered by DROPS.

“An interactive and very comprehensive understanding of dropped object hazards and ‘best practice’ prevention techniques.”

Synopsis

The DROPS Training / Awareness Course is a modular and flexible training package designed to raise awareness of dropped object prevention throughout the oil and gas industry and beyond. The programme is based upon Industry and DROPS Forum lessons learned and associated best practices. The training is suitable for offshore and onshore audiences and captures the best practice and lessons learned by the DROPS Workgroup and its members.

DROPS supply the course materials in digital format and deliver “Train-the-Trainer” familiarisation courses such that you, or your designated Training Provider, can cascade the awareness training throughout your organisation. **The pack now includes a simplified Primer Level Awareness presentation to make it easier to start your campaign.**

Objectives

The objectives of the DROPS Training and Awareness Course are:

- To understand and define **what is a potential dropped object**
- To know how to **identify a potential dropped object** and the common causes
- To review methods for the **control and prevention** of potential dropped objects
- To understand **roles and responsibilities** in respect of potential dropped objects
- To consider options for maintaining awareness and **continuous improvement** in the fight against dropped objects

Course Structure

- Module 1: **Understanding Dropped Objects**
- Module 2: **Controlling and Preventing Dropped Objects**
- Module 3: **DROPS through the Supply Chain (in brief)**
- Module 4: **Hazard Observation**

Customised Courses

The DROPS Training and Awareness Program is provided as an editable presentation complete with the necessary templates to allow you to customise the training to suit your specific asset(s) and operations.

Train the Trainer Concept

The DROPS ‘Train the Trainer’ Course is designed to review the course content, explain how best to deliver the awareness program, how to tailor the presentation to differing audience groups and how to customize the awareness for specific assets, locations or operations. A certificate of attendance / participation is issued to all course delegates.

The full suite of training material is supplied digitally in MS PowerPoint format on a USB drive. Additional electronic material including DROPS Best Practice guidance is also included. Copies of the DROPS Calculator, prompt card and current Reliable Securing handbook are provided as course handouts.
