

Company Profile
Safety Solutions Presentation for OXY

About Us

- Founded in 2019
- HQ is in Houston, Texas with a location in Draper, Utah, and partners globally.
- Founders have a combined 50+ years in the HSE, inspection, lifting, and rigging in the Oil, Gas, and Mining industry.
- 5th Element's focus is providing product safety solutions to mitigate dropped objects, slips, trips, and falls and protecting from high-pressure releases and blasts.
- On request, 5th Element can also provide site assessments to identify workplace hazards, recommend solutions and offers safety consulting services.

Problems we mitigate

Injury or death due to high-pressure releases, shockwaves or blasts

Dropped Objects or Falling Objects (struck by)

Falls to same level

Falls to lower level

Slips & Trips

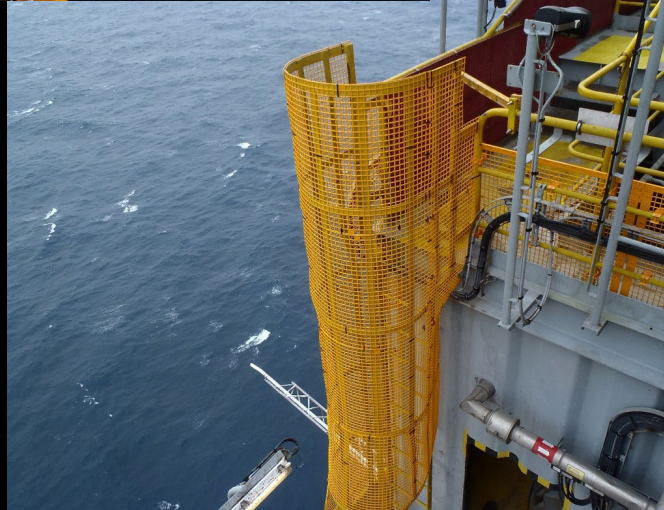

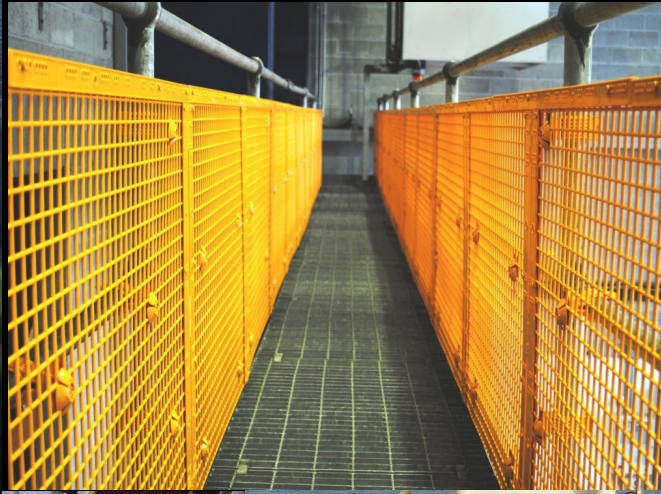

Incidents and fatalities caused by inadequate conveyor & machine guarding

Industries we serve and product applications

- Oil & Gas (onshore and offshore drilling facilities)
- Refineries and Petrochemical plants
- Mining
- Power Generation and Utilities
- Shipyard & Marine
- Construction
- Our products are used during regular work operations and turnaround activities like maintenance and shutdowns on the material transfer conveyor belts/material handling systems, around moving machinery, deck levels guard railing, open hatches, grating, smelting, refining, and millwright facilities.

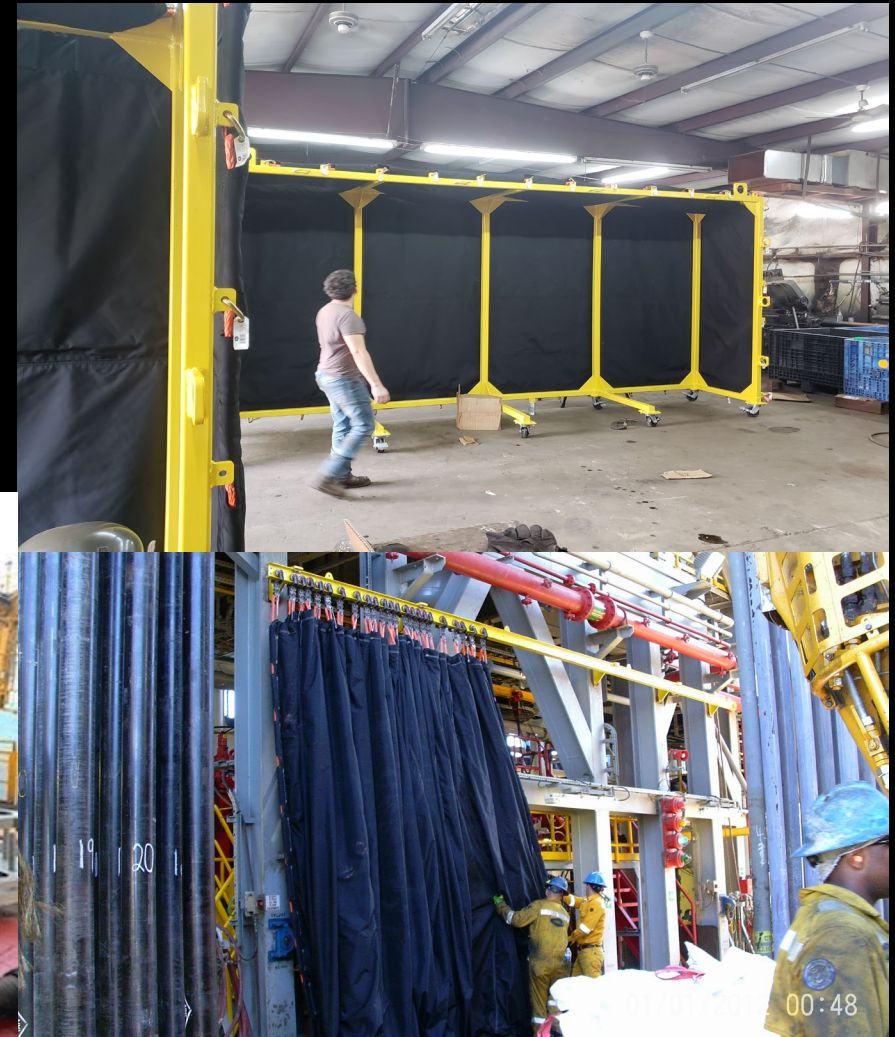

Some of the customers we supply to

- Transocean
- Noble Drilling
- Diamond Offshore
- Valaris
- Marathon Petroleum
- BP
- Total
- Equinor
- Shell
- Kiewit Offshore
- Rio Tinto
- BHP Billiton
- Anglo-American
- Tacora Mining
- Philippine Association of Smelting & Refining Corporation / Glencore
- Newcrest Mining

StopForce™ Safety Curtain

- Patented curtain containment technology
- Increases production \$\$\$ and reduces downtime
- Fixed and portable systems available
- UV protected & flame retardant (NFPA 701 or CSFM)
- Made from proprietary Auxetic yarn
- Saves people & equipment
- 3-year warranty
- Full turnkey fabrication, supply and installation

cablestand/bridge

Safely suspend cables, hoses and wires during construction or maintenance over walkways and roads.

- prevent slips, trips, falls
- suspend cables over a long distance
- improve workplace housekeeping
- help protect cables from constant wear and tear
- custom made of coated steel
- can hold up to 500KG of cable weight
- reusable
- made in USA

safetyhook

Safety hooks or s hooks are used to suspend cables, hoses and wires during maintenance, turnaround, shutdowns, outages, construction and regular operations to prevent slips, trips and falls in the workplace.

- easy to use and store
- reusable
- available in safety orange
- Comes in 4 sizes
- Non-conductive (electricity & heat)
- Can last up to 15 years in normal use
- Strongest in the market
- Made from high-quality glass-reinforced polyester
- Made in the USA
- Ships from Houston, TX

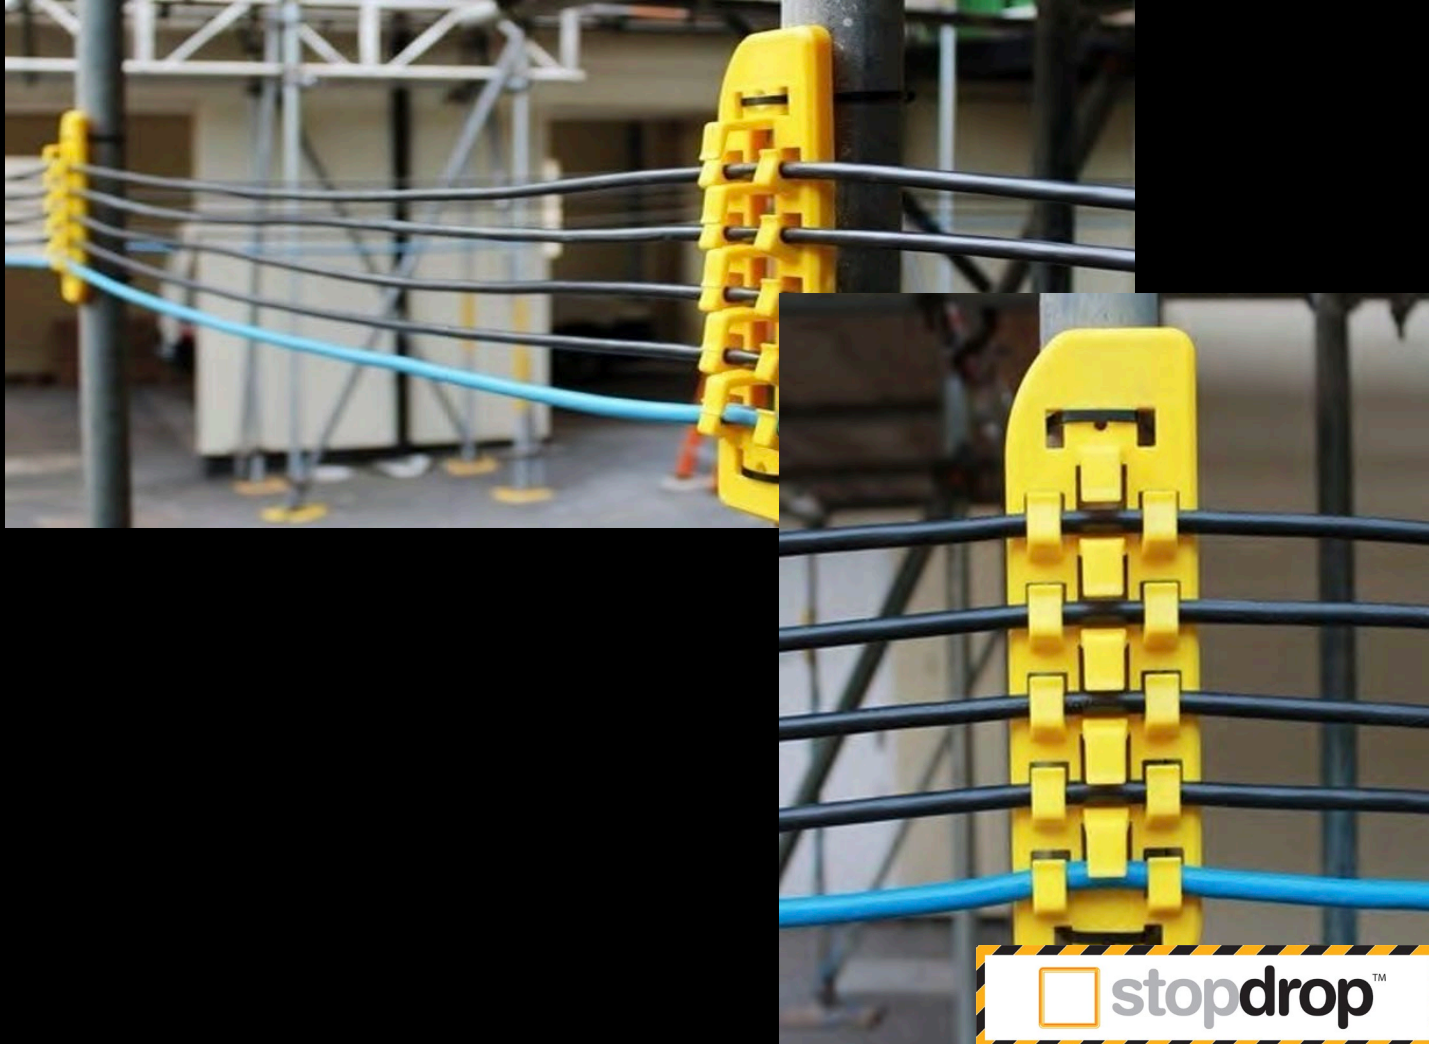

Heavy Duty Cable Guard

Avoid tripping accidents and damaged cables by using heavy-duty Cable Guards & Covers to cover walk and driveways. Heavy-duty cable guards protect electrical cables & hoses.

- Polyurethane: Lightweight design for heavy-duty use. Lighter, stronger, and more durable than comparable products
- Uses a hinged lid to make adding/changing cables very quick and easy
- Low-profile design decreases trip risk significantly
- Connecting System: integrated male-female allowing cable guards to be any length desired
- The patented 5-bar tread surface provides maximum traction for the heavy-duty cable
- The inbuilt carry handle makes it easy to carry 2-year warranty

Heavy Duty Cable Rail

- Easy to install & intuitive 3 steps cable loading
- Comes in bright yellow for safety awareness
- Suitable for outdoor use
- Can be placed horizontally or vertically
- Cost-effective
- Dimensions : 245 mm long x 75 mm wide x 10 mm thick
- Each cable rail weighs 85 gr
- Can hold up to 5 standard 110v or 240v cables
- Non-conductive
- Helps prevent slips and tripping hazards
- Perfect for good housekeeping

- Company Business Registration No.: 0803099015
- Incorporated in Houston, Texas, USA
- EIN Taxpayer ID: 32068143869
- Company address
 - 9500 Westview Dr., Suite 106, Houston TX 77055 United States

“It takes less time to do a thing right, than it does to explain why you did it wrong.”
